

Welcome to Woodheads Energy Park Community Exhibition

Thank you for attending the first round of our community consultation events for Woodheads Energy Park

The exhibition will provide you with the details of our current plans. This includes information on how the proposed Woodheads Energy Park will help to tackle climate change, and details of the potential opportunities and benefits of the project for the local area.

Several members of our team are here to help explain the project and to answer your questions.

We are in the early stages of developing our plans, but want to involve the local community at this stage so that we can incorporate your feedback and views into our proposals as they develop.

All information displayed here today can also be viewed on the project website.

Please take a few minutes at the end of your visit today to give feedback on the form provided.

If you would like to provide online feedback after the event, you can do so on our project website. The QR code will take you directly to our online feedback form.
